

# TYPOGRAPHIC PORTRAITS

A specific personality is specified in the twelve designated areas that appear on the assignment sheet. Visualize the character of the person described. Then, using your whole name, part of your name, or your nickname, choose an appropriate typeface for each individual personality and carefully render your name in the given area. Consider the style, the weight, the letterspacing and the color of the typeface. Give special attention to the size and placement of your name in the given space.
